

Titel:

How Standardization helps the World work better

Abstract:

Get insight what the world of standardization can do for you. Get a short introduction on what kind of standards there are and how it interacts with you daily life and your work.

With several examples of the analytical world but also unexpected ones of standards on how to prepare the best cup of tea.

Examples are given how it can help to advance your career and steps you can take for further involvement.

Questions are encouraged, so you get the most out of this e-lecture for your personal development.

Looking forward to speak with you!
